Experience & Projects

Application Developer Intern

Panduit Inc.

Tinley Park, IL

Present

- Modernized Engage employee mobile app for over 4000 employees using the Ionic framework for both Android and iOS.
- Built a .NET Web API for internal use for Panduit to allow other applications to leverage Microsoft Graph API data on behalf of users.
- Participated in weekly Agile stand-ups and methodology to efficiently reach project goals.
- Rebuilt Install-It app with updated Ionic components for use by technicians and distributors for Panduit product information.
